ÉDITORIALS

After a long four-year wait, it's finally here: from 4 to 10 June, all eyes will be focused on Vichy as it hosts the world's biggest sporting event for people with mental and/or psychological handicaps. It's an extraordinary event: 1 week of competition, 12 disciplines, over 1,200 athletes.

Our delegation includes over 159 athletes, some of whom have already taken part in the Global Games, while for others this will be their first time, but whatever the case, this event will undoubtedly mark a milestone in their sporting careers.

One thing's for sure: to get to this point, the selection and preparation process has been long and hard, full of self-sacrifice and sometimes failure, but also of victories.

United behind the tricolour flag, our athletes are fully aware that they are taking part in an extraordinary event and that they are the standard-bearers for millions of disabled people around the world, who will be in the spotlight thanks to their commitment, determination and performances.

As the level of competition continues to rise, it promises to be tough, even fierce, But the French team has big ambitions: to do even better than in Australia, where it returned with 72 medals, including 29 gold, 20 silver and 23 bronze, finishing 2nd in the world rankings. We know and honour all the efforts our athletes have made to be ready on D-Day and to shine in front of their public; we're counting on them to make the Marseillaise ring out and thrill us all.

As the icing on the cake, this 6th edition of the Global Games, which has the support of the International Paralympic Committee (IPC), will recognise the performances achieved in athletics, swimming and table tennis to qualify for the Paris Paralympic Games. Aware of what is at stake, everything has been done to ensure that the event lives up to our expectations; it has been carefully prepared by the FFSA and strongly supported by the town of Vichy, the urban community and the Auvergne-Rhône-Alpes region. In addition to the care taken with the welcome and the sporting organisation, the infrastructures, which are perfectly spread out over the area, and several of which have recently been renovated, will, I'm sure, provide the athletes and the public - of which we hope there will be many - with an exceptional experience that they will remember for a long time to come

I wish all the athletes an excellent competition, the opportunity to express their full potential and to fully live this great adventure.

Marc TRUFFAUT, President of the Fédération Française du Sport Adapté and President of VIRTUS

ÉDITORIALS

From 4 to 10 June, Vichy, the Queen of the spa cities, will be the scene of the 6th edition of the Global Games, with which the Ministry of Sport and the Olympic and Paralympic Games is pleased - and proud - to be associated.

For the first time, France is organising the world's biggest multi-sport event for athletes with an intellectual impairment, with 1,000 athletes, coaches and officials from 45 countries and 12 disciplines taking part in a 6-day competition that will once again be marked by top-class performances.

With just under 500 days to go until the first Summer Paralympic Games to be held in France, I'm wholeheartedly behind our French team: may it continue to rise to even greater heights than in Brisbane 4 years ago, where it finished 2nd nation, and may it be at the top next year in Paris in the next 3 Paralympic disciplines.

A huge thank you to the host town of Vichy, as well as to the towns of Bellerive, Cusset, Magnet and Bourges, who, thanks in particular to the 400 volunteers and 260 officials mobilised, are confirming our country's know-how in terms of organising major sporting events, so that they are both beautiful in sporting terms and accessible to all.

I'm also convinced that the public will turn out in force to get to know the men and women they will be supporting at next year's Paralympic Games, and to cheer on all the athletes, so that they can all experience the magic of playing at home in front of an audience that is totally committed to their cause.

I'm sure that this wonderful event will also be a great step towards changing the way people look at handicap, just as the biggest parasport world celebration will be next year.

Come one, come all!

Amélie OUDÉA-CASTÉRA, Minister for Sport and the Olympic and Paralympic Games

ÉDITORIALS

The CPSF is proud to support the 6th Virtus Global Games 2023, the most important international multi-sport competition for high-level athletes with a mental or psychological impairment. I salute the commitment and hard work of the organising committee, the FFSA and all those involved.

The integration of people with impairments into the sporting arena must concern everyone, without exception, and is at the heart of the Games' legacy.

With less than 500 days to go until the Paris 2024 Paralympic Games, the organisation of this event in France, in Vichy, is of particular importance: it is an opportunity to promote a competition that is still too little known, exclusively dedicated to athletes with intellectual impairments, some of whom will be present in Paris in a year's time.

In 2023 and 2024, athletes with a mental or psychological handicap will benefit from increased visibility, which will serve not only them, but society as a whole: it was therefore obvious that the Paralympic Committee should support the Organising Committee and take action.

Marie-Amélie LE FUR, President of the French Paralympic and Sport Committee (CPSF)

ÉDITORIALS

As early as 2016, with Sandrine CHAIX at my side, we made handicap one of the priorities of our regional action. In this respect, I am convinced that sport, and the values it conveys, are a powerful lever for inclusion.

This is the meaning behind our support for hosting the Global Games in our region, in Vichy. As the biggest international competition in adapted sport, it will be an opportunity to highlight the work and talent of hundreds of athletes from all over the world.

Organising an event of this scale also rewards the Region's commitment to providing high-level sports facilities that are accessible to all, like the CREPS in Vichy, which will be the base camp for the French teams at the Global Games

Thanks to the work carried out, we now have a reference site offering the same conditions of welcome, accommodation, training, access to care, sports practice and recovery for all athletes, whether able-bodied or with a handicap. For me, this is an immense source of pride.

Excellent Global Games to all!

Laurent WAUQUIEZ, President of the Auvergne-Rhône-Alpes Region

ÉDITORIALS

The Vichy conurbation is delighted and proud to be hosting the 2023 Virtus Global Games organised by the Fédération Française du Sport Adapté.

« Sport has the power to change the world. It has the power to unite people in an almost unique way. Sport can create hope where there was only despair. Sport overcomes all types of discrimination”: these words from Nelson Mandela remind us that sport, magical in more ways than one, breaks down the barriers of handicap. This gives it a unique universality and values that we defend in Vichy.

Sport is at the heart of our region, and our ambition is to make it a benchmark for hosting top-level sportsmen and women and organising major national and international competitions in a wide variety of disciplines, whether the athletes are able-bodied or have some form of disability.

On 16 April, following on from the "Land of the 2024 Games" label and the inclusion of the Vichy Communauté and CREPS Auvergne-Rhône-Alpes / Vichy sports facilities on the list of Olympic and Paralympic Games Preparation Centres, our region hosted the main national highlight of the "D-500" Paralympic Games..

More than ever committed to sporting performance, inclusion and changing the way people look at disability, we are proud and happy to welcome the athletes of the Virtus 2023 Global Games and would like to thank the organisers of the Fédération Française du Sport Adapté, as well as all the volunteers involved.

This international competition is a major event for our region and a wonderful opportunity for us all to raise the profile of our conurbation. We wish everyone a wonderful Global Games 2023 Virtus!

Frédéric AGUILERA, Mayor of Vichy, President of Vichy Communauté and Vice-President of the Auvergne-Rhône-Alpes Regional Council

VIII. NOT ONLY SPORT !

Opening ceremony

The opening ceremony will take place on Sunday 4 June with the parade of delegations from the Town Hall to the Opera House starting at 3.30pm. The meeting point for all delegations is **3.00 pm** at : **Place de l'Hôtel de Ville, 03200 Vichy**.

The Palais des Congrès-Opéra de Vichy is a unique journey through the Second Empire, the Belle Époque and Modernity. Housed in a listed historic monument, the Palais des Congrès-Opéra de Vichy underwent a major restoration programme in 1995 to restore its historic rooms and create contemporary spaces.

Opened in 1903, the Vichy Opera House is the work of architect Charles Le Coeur, who was architect to the Ministry of the Interior and designed a number of Parisian high schools, including Louis-Le-Grand and Fénelon. For the construction of the Opéra, he was assisted by Lucien Woog, a Belgian architect and professor at the École des Arts Décoratifs. A listed monument and a unique example of Art Nouveau, it is wonderfully decorated in a harmony of gold, ivory and yellow.

The delegations will arrive at the Opéra between 5.00 and 6.00 p.m. to set up the various delegations.

Several entrances will be possible depending on the colour of your wristbands :

- Entrance via the Opera steps: **Red wristband**
- Entrance via the Palais des Congrès Auditorium: **Blue wristband**
- Entrance from the Palais des Congrès Salle Napoléon III via the terrace: **Green wristband** (staff/volunteer)
- VIP entrance from the Opera side: **Red wristband**
- Guest entrance to the Auditorium on the Palais des Congrès side : **Blue wristband**.

The **ceremony will begin at 6:00 pm**. A simultaneous retransmission of the ceremony in the Opera House will take place in the **amphitheatre and the Salon Napoléon III**. There will be a **cocktail reception after the ceremony**. For the Opening Ceremony we have a Big Screen for families and friends of athletes.

For the opening ceremony, each delegation will choose a sports person (one woman and one man if it's possible) to act as flag bearer.

Closing Ceremony

The closing ceremony is scheduled for **Saturday 10 June** after the competitions at the **Théâtre de Verdure** near the Palais des Sports. It will start at **around 6.30pm**.

A bus transfer will be provided for the delegations.

The gala evening will be held after the ceremony at the Palais des Congrès in Vichy, with a cocktail reception and entertainment.

There will also be a **bus transfer from the Théâtre de Verdure to the Palais des Congrès** in Vichy.

Boutiques

We have decided to create boutiques as part of the organisation of the Global Games. These shops will sell items, goodies and clothing emblematic of the Global Games in order to communicate about the event and make it all the more visible. We also thought it would be a good idea for spectators to have a souvenir of the Global Games!

There will be 3 boutiques at the event, each with 3 sales staff to meet the needs of spectators:

1. **Athletics:** from **6 to 9 June 2023** from **9am to 7pm** (closed from 12pm to 1pm).

X. IMPORTANT INFORMATION

Language and accessibility

English is the official language of the 2023 Global Games. All information will be available in English.

Vichy is a French commune located in the south-east of the Allier department, in the Auvergne-Rhône-Alpes region. Built on the banks of the river Allier, on the border between the Limagne plain and the Bourbonnais mountains, it has been known since ancient times for its spring

Also known as the "Queen of the spa towns", Vichy is the leading spa town in the Allier and a must-see in the Auvergne. A wealth of architecture, a heritage of quality magnified by its location, a prestigious opera house, thermal baths, parks with remarkable trees, passages that look like the seventh art.

All this in an incomparable setting that gives Vichy a charming air of the continental 'French Riviera', a hedonistic oasis that has come to terms with the end of its thermal golden age..

Weather

The weather in Vichy at the beginning of June is fairly mild and sunny, corresponding to the end of spring in France. The average temperature is 22 to 23 degrees Celsius and 11 to 12 degrees Celsius at night.

Electricity

International participants will need an adapter to plug their appliances into the sockets (220 VOLTS).

In France, sockets are of the following types: C, E & F.

Currency

The currency in France is the euro (€). The euro is the currency used by most member countries of the European Union, including France. It is subdivided into cents, with euro coins (1, 2, 5, 10, 20, 50 cents and 1 euro, 2 euros) and banknotes (5, 10, 20, 50, 100, 200, 500 euros).
